

E. P. White Dual-Density Polyester The Perfect Solution For Dry Overspray Collection

E. P. White is a premium dual-density polyester collection media. Its aggressive adhesive collects and traps dry overspray. Keep paint in the filter and protect the environment.

99.8% Removal Efficiency

E. P. White Collection Media Bulk Rolls & Perfed-Pads

**Outstanding
Performance &
Available In
90" Width**

E. P. White Bulk Media Rolls

Easily cut to any length for use as collection blankets. Standard rolls are available in 45", 50", 60" and 90" widths by 90' length. Standard size rolls can also be *perfed-to-length*.

Cut Pads

Available in 20" x 20", 20" x 25" and 24" x 24" (30 pads/carton).

Initial Resistance
0.05" at 150 fpm
99.8% Efficiency

FIBERBOND

E. P. White Panel

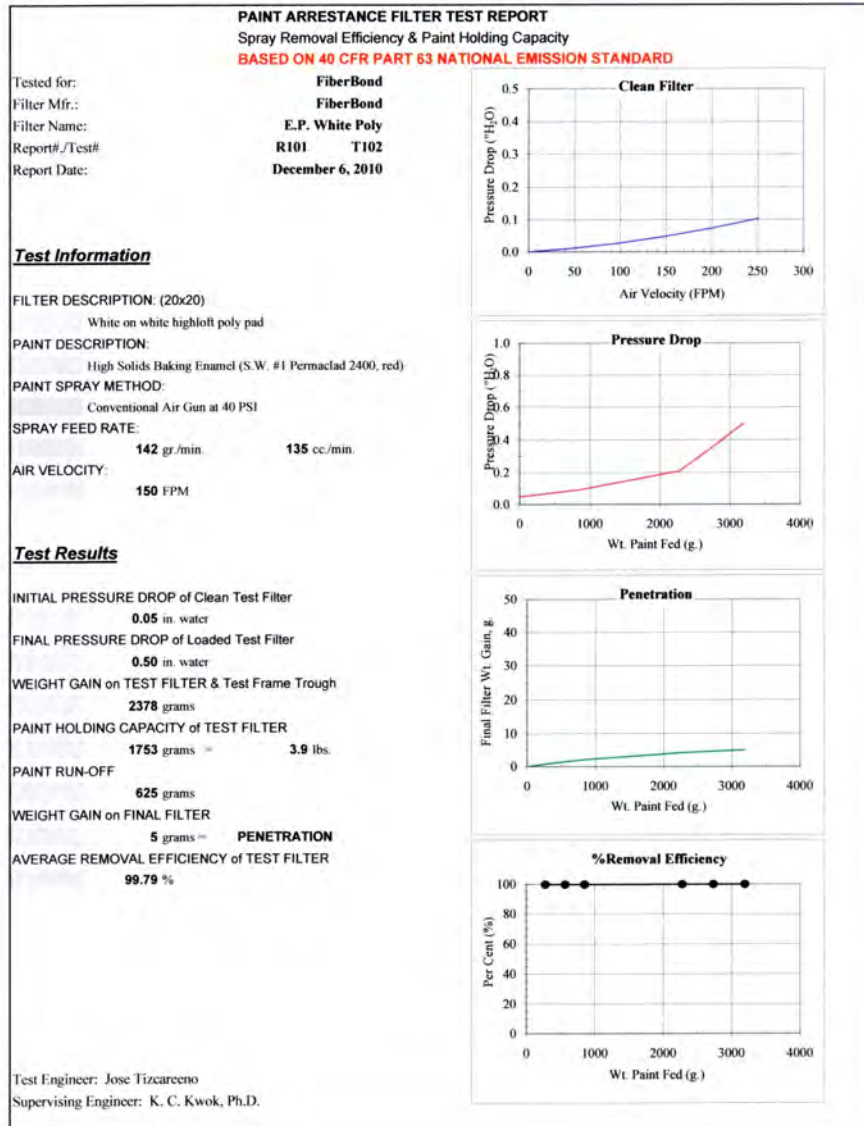

Self-Sealing, Exhaust or Intake

The E. P. White panel consists of a dual-density upstream media and a dense downstream layer with an effective tackifier between layers. Four heat-sealed supports eliminate media fluttering.

Initial Resistance
0.14" at 200 fpm
0.23" at 300 fpm

94% Efficiency
On 10-Micron Particles
