

Filtech^{INC.}

FILTRATION SPECIALIST

OVER 45 YEARS STRONG!!!

HYDRAULIC FILTRATION

Cross Reference Interchange Program:

Filtech currently offers Swift & Hy-Pro Interchanges. Simply provide one of our technical representatives with the OEM's Part Number or Specifications and we'll supply an exact replacement.

**Filtech always recommends that you compare the current filter specifications to the Filtech Data-Sheets or the Item Description found with every quote*

OEM Filters:

If an interchange of an OEM is not preferred Filtech will be happy to offer what is needed. Below is a list of the most common manufacturers we supply.

- Schroeder
- Hydac
- Pall
- Eaton (Vickers)
- Donaldson
- Hilliard (Hilco)
- Parker
- Stauff

Filtech specializes in a full complement of hydraulic filtration, including pressure elements, tank breathers, strainers, and fluid conditioning equipment.

Filter Carts are ideal for hydraulic fluid conditioning and cleaning oils during fluid transfer.

Achieve and maintain acceptable water levels for any sized reservoir with our vacuum dehydrators.
